ACTIVITY REPORT

Activity: Workshop on Azolla Culture Vermicompost Preparation and Organic farming'	Date: 30.12.2020
Venue: Seminar Hall	Participants: Students Staff and Local farmers

TRR Government Degree college took the lead and organized the One day Workshop on Azolla culture, Vermi compost preparation and Organic Farming in coordination with CTRI RS (Central Tobacco Research Institute Regional Station) Kandukur. To the students staff and the local farmers. Through environment friendly outreach programs we can mass spread the awareness among the public. Though the turn out of farmers is low (32) we succeeded in dissipating the knowledge on *Azolla* culture and Vermi compost preparation.

Cental Tobacco Research Institution, Regional Station Kandukur staff participated in the program as the resource persons under the able leader ship of their Regional Station Director Dr. M. Anuradha. The program is presided by the college Principal Dr. M. Ravi Kumar. He addressed the gathering and shared many environment friendly sustainable ways of life.

In this program J. Venkateswarlu an Oranic farmer graced the occasion and shared his views on benefits of Organic farming. The farmers visited our Azolla Pond and Vermi compost Unit and experienced the practical exposure of the subject. Department of Botany organized the lunch program to the local farmers. All the students and staff of the college actively participated in this program.

STAFF COUNCIL RESOLUTION

Staff Council meeting was held in the Principals chamber and resolved the following decisions.

1. As a part of implementing the Green policy of our college, the Botany department proposal to take up Organic farming in the new Palm Garden is welcomed and accepted. As per their proposal they wish to produce leafy vegetables and vegetables in the palm garden.
2. It is resolved to take the help of Jillellamudi Venkateswarlu an organic farmer of Venkatadripalem village, Kandukur Mandal in training our students.
3. It is resolved to involve the final BZC students in organic farming.
4. It is resolved to undertake the field trips to Venkatadripalem organic farm, and train the students in land preparation, organic fertilizer, pesticide preparation, sowing, weed management disease management.

The proposal of the Botany Department is appreciated and accepted. The decision to start the work will be initiated after going through a thorough scrutiny of financial implications.
