Objectives of Prawn Processing:

Prawn Processing involves , preparing Prawn and seafood for delivery to consumers. Once the prawn is harvested it must undergo several steps before it read to be sold in the market. The process includes gutting ,filleting and packaging of the product. Prawn is a highly perishable food so it must be carefully handled from the moment caught untill it is sealed in packing material . Proper , efficient processing and packing prevent deterioration and ensure a quality product.

Prawn Processing involves the following steps

- Sorting Prawn by Size
- Manually heads are removed
- Moving prawns in to a cleaning machine maintained water PH at 4
- Grading
- Freezing at -40°C
- Packing

STUDENTS REPORT

On behalf of T.R.R government degree college kandukur, we the students of I, II & III year along with our lecturers Smt. Dr. I. Anusha, In-charge of the zoology department, Smt. M. Jyothi, lec in zoology, visited a field trip to Devi sea foods, singarayakonda near kandukur on 07-05-2022. We went to the Devi sea foods which is the area of 200 acres and nearly 80 employees are working there. Sk. Ansari working at Devi sea foods explained about shrimps, how to grow shrimps from first stage to last stage. Besides that they have shown different categories of prawns and how they are useful to the zoology department. Among all the field trip we the students of T.R.R govt Degree college kandukur, learn a lot of things and activities which will be very useful to our zoology Department particularly shrimps growing. We feel very happy for the field trip of Devi sea foods, singarayakonda and return back to our college with knowledge.
